Special Effects

Special effects can only be used with the Strike, Thrust, Throw, Shoot, Dodge, and Parry proficiencies.

To attempt an offensive special effect, an untrained character suffers a -2 proficiency penalty and deals no damage. A trained* character chooses one or the other. To attempt a defensive special effect, an untrained character suffers a -2 penalty and takes 2 psyche damage. A trained character chooses one or the other. Apply one of the following detrimental effects to the target.

- Knock down - Target is knocked prone
- Throw/Knockback - Target is moved 2 paces in any direction. If using Throw or Shoot, direction must be away from user.

- Disarm - Target is disarmed of user's choice of held To attempt an offensive special effect, an untrained

- Disarm Target is disarmed of user's choice of held item.

- Grab May not be used with Throw or Shoot.
 Applies the Grabbed status.
 Stunning Blow Target is stunned
 Crafty Defnese Only Dodge or Parry. Attacker takes damage equal to user's AGL bonus.
- * Training refers to the use of a proficiency in which the corresponding skill is level 1 or higher. * If there is a good reason, a GO may lift/add

Dual Wielding - For Shoot, Thrust, Throw, and Strike **Dual Wielding** - For Shoot, Thrust, Throw, and Strike attacks, a character can choose to make two simultaneous attacks if equipped to do so (i.e. two swords/firearms/etc), or unarmed. Against separate targets, each attack is resolved independently and the attacker's proficiency for both attacks is 6 less than normal. Other penalties may reduce it further. When both attacks are against the same target, resolve them as a single attack with the proficiency 3 lower than normal (and other penalties may reduce it further). If successful, the attack deals +1 damage.

The attacker may not activate special effects or powers during turns that include simultaneous attacks.

Healing: Heals one point of Health, Blood, and Psyche

- Rejuvenation: Heals one point of Health, Blood, and Psyche, Rejuvenation: Heals one point of Health, Blood, Psyche, and Vitality

 All types of healing are subject to several limitations in addition to the max scores for each secondary stats. 1) A character cannot heal to greater than her max
- A character cannot recover an amount of Health or Blood greater than her current Vitality. Aeternari are
- immune to this restriction.

 3) Vampyres do not gain Blood from points of healing or rejuvenation and Aeternari do not gain Vitality from points of rejuvenation. Immunity to one aspect of the restrictions does not imply immunity to the others.
