Discretionary EXP Chart

Discretionary EXP can be spent in conjunction with CC EXP for statistics, skills, powers, knowledges, or on advantages.

CC EXP: 16

EXP Spent _____

Discretionary Expenditure

EXP

Conditions

All-Out-Defense - +2 Proficiency to single defense until the character takes a turn.

Blind - Suffers -3 to melee attacks and -6 to ranged attacks requiring a target.

Darkness - Applies Blind status to anyone within it.

Daze - Suffers -2 offensive and -1 defensive proficiencies for next 3 turns.

Grappled - Limited to actions that use only 1 hand. -2 proficiencies to attack targets other than grappler, may attempt Struggle Test: STR or AGL opposed by Grappler STR or AGL as an action to remove. Movement reduced to 1 pace. Excluding metaphysical attacks that do not physically manifest, attacks against the grappled character that miss have a chance to hit the grappling character.

Grappling - Limited to actions that use only 1 hand. May attempt struggle test to move with grappled victim as though walking, if failed grappler cannot move. Defend at -2 proficiency penalty against characters outside of the grapple. Excluding metaphysical attacks that do not physically manifest, attacks against the grappling character that miss have a chance to hit the grappled character.

Knocked Out - Unable to take actions or movement and is unaware of surroundings. Vulnerable to Deathblows. May not activate or use interrupt-based powers or effects.

Lame - May not run or sprint. Any powers that grant movement as though sprinting instead grant movement as though walking.

Mute - May not speak, sing, whisper, grunt, whistle, or make any noise that requires air passing from the lungs. Cannot use powers that require vocalization.

Prone - Limited to 1 pace crawling movement. May stand by forfeiting movement or action. If forfeiting movement, suffer -3 movement penalty. Prone characters suffer -1 to all physical defensive proficiencies except evade, which grants +1 proficiency, and -3 to physical offensive proficiencies except Shoot which grants +1 proficiency.

Sluggish - Lose initiative stones, suffer -2 to all proficiency tests, -2 stones to all feats, limited to walking movement, may not activate or use interrupt based powers or effects.

Stunned - Suffer -2 offensive and -1 defensive proficiencies for the next two actions. May use first stunned action to remove condition, may not do anything else except walking movement. May not activate or use interrupt based powers.

Feat vs. Statistic Rating

Feat	2	3	4	5	6	7	8	9	10
0	7	9	11	13	15	17	19	21	23

Special Effects

Special effects can only be used with the Strike, Thrust, Throw, Shoot, Dodge, and Parry proficiencies.

To attempt an offensive special effect, an untrained character suffers a -2 proficiency penalty and deals no damage. A trained* character chooses one or the other. To attempt a defensive special effect, an untrained character suffers a -2 penalty and takes 2 psyche damage. A trained character chooses one or the other. Apply one of the following detrimental effects to the target.
- Knock down - Target is knocked prone
- Throw/Knockback - Target is moved 2 paces in any direction. If using Throw or Shoot, direction must be away from user.
- Disarm - Target is disarmed of user's choice of held item.
- Grab - May not be used with Throw or Shoot. Applies the Grabbed status.
- Stunning Blow - Target is stunned
- Crafty Defnese - Only Dodge or Parry. Attacker takes damage equal to user's AGL bonus.

* Training refers to the use of a proficiency in which the corresponding skill is level 1 or higher.
* If there is a good reason, a GO may lift/add restrictions

Dual Wielding - For Shoot, Thrust, Throw, and Strike attacks, a character can choose to make two simultaneous attacks if equipped to do so (i.e. two swords/firearms/etc), or unarmed. Against separate targets, each attack is resolved independently and the attacker's proficiency for both attacks is 6 less than normal. Other penalties may reduce it further. When both attacks are against the same target, resolve them as a single attack with the proficiency 3 lower than normal (and other penalties may reduce it further). If successful, the attack deals +1 damage.

The attacker may not activate special effects or powers during turns that include simultaneous attacks.

Healing: Heals one point of Health, Blood, and Psyche
Rejuvenation: Heals one point of Health, Blood, Psyche, and Vitality
All types of healing are subject to several limitations in addition to the max scores for each secondary stats.
1) A character cannot heal to greater than her max score.
2) A character cannot recover an amount of Health or Blood greater than her current Vitality. Aeternari are immune to this restriction.
3) Vampyres do not gain Blood from points of healing or rejuvenation and Aeternari do not gain Vitality from points of rejuvenation. Immunity to one aspect of the restrictions does not imply immunity to the others.
